As an artist, I use art to convey not only visual delight but intent, making sure my art is easily readable with expressive characters and strong shape language.

As a worker, I am versatile, resourceful, and communicative, and enjoy the exchange of ideas and critique to achieve the best result. I am both self-motivated as well as a team player.

My experience includes: illustration, ideation, design and instruction, workshop leadership, animation, brochure and manual design, ceramic and glass kiln operation, sticker and trading card design.

I am looking for: A team I can collaborate with and create for, either as part of production or engaging with the community.
